

Faith and Hope

Faith binds us together when times are difficult.

All of us different but unite in difficult times.

Innovation and reliance on technology is the new self destruct.

Testing us this valued time with the family and residents.

Happiness means family and having faith.

Hope will always be with us, when we cannot find our way and feel like giving up.

Overcoming obstacles, it makes us believe and grow stronger.

Persistence and having faith in our Pride Values is what keeps us striving.

Eventually the end will be in sight if we all keep hope for the future still to live.

With Faith and hope, we can say that better times will come our way.
