

Yes indeed.

Yes indeed.

We are living through a pandemic, a nightmare we all share,

Young, old, poor or rich its just so hard to bare.

Our Doctors, nurses work so hard, they really are sublime.

To nurse, to care, to save to loose, not an easy time.

They closed our schools, our pubs and parks, little recreation.

We must stay at home, save lives and practise isolation.

Some lost the fight, their loved ones despaired,

A minute silence to show we cared.

When people spread hope, and come to others aid,

When families come together,

Shake hands and kiss and hug,

Then my friends we know we've overcome this bug.

Yes indeed!!!!
